Chapter One: **Free Domain Name of Your Choice. Free for Life!**

One of the biggest faults with most of the affiliate programs and income opportunities out there is that they are geared toward webmasters. People that know how to build, upload and modify web pages. The vendor provides you with an affiliate link that will always start with the vendor's actual domain name and then will end with the affiliate's own identifier like: www.iamTheVendor.com/?12345/id=rjh/585436.

The problem occurs when you go out and promote. What are you really doing? You are actually promoting the vendor's domain name and building the vendor's brand name. Not yours.

Oh sure, you can customize your store and maybe even buy a domain name and set-up a redirect (if you are lucky enough to know how) but you are still building the vendor's brand....not yours.

Another problem is that search engines are blind to affiliate links. You can't perform effective SEO (search engine optimization) with an affiliate link, so you are sentenced to manually promoting your vendors affiliate link forever.

Not so with The Profitmart Professional internet Profit System. So, what makes it so different? First each Profitmart Website is custom built around a **unique domain name that YOU CHOOSE**. The domain name is paid for you when you join Profitmart and It will be renewed for you every year for life FREE. This means you build your brand and identity around your domain name online. Also your site will actually be optimized to your keywords and content. This then is food the search engines are looking for. Give them great content and links and the search engines will love your Profitmart Website!

Tips on Choosing a Good Domain Name. When it comes to search engines your domain name matters more than one could think. If you have a website about, let's say, a Fishing Business, the domain name should, if possible, contain some information about this. www.bassfishing.com etc.

Two of my own examples are www.SoftwareandArticleStore.com and www.Internet-Profit-Business.com. Shorter names like this one www.ukhi.com, also one of mine, are almost all gone now, but you may find one or two that will satisfy your need.

It should not be www.lets-make-it-on-the-webnow4life.com or www.wow4mysite.tv. since this does not tell anything about the specific content. You should really try to have your primary keywords in the domain name if possible. I know it's not easy but I think it is worth the effort.

Here is a good example. [Free Monthly Gifts.com](http://FreeMonthlyGifts.com) Now what does this site offer or sell? You guessed it **Free Monthly Gifts**. Quality ones too not the usual rubbish. Try it Here. <http://tinyurl.com/32jvvt>

So when you're about to launch a new site, take a moment and think about it. What is your site about? What are the keywords that you're going to optimize your site for? Read a bit about SEO (Search Engine Optimization) before choosing the domain name. That will give you a good base to stand on before deciding which name to use. There are some great tips at this website. www.thesitewizard.com

Reading the above website tips will help you choose an appropriate name for your site. This is really important. Please get your Domain,(Web site name) right first time! Remember the link above www.iamthevendor.com/12345/id=rjh/585436.

Well this simple software. <http://www.pipsurlshrinker.com> Will shorten it.

It is a brilliant URL reducer, better than most. Great if you have long affiliate links. **You May Sign up to Our Professional Income Producing Club by clicking the link below.**

Chapter two: Adding web pages of your own. Easy done

Profitmart starts you off with over 90 instant niche pages, but there are NO LIMITS on how many of these you can create and add content to. Some members have hundreds of pages in their Profitmart stores and laser target their marketing to each specific page using pay-per-click or ezine ads. Other members choose to fine tune their product to variables of one specialized niche such as guitar playing, gardening and pet care. Some members own multiple Profitmart sites specifically for this reason, but all you ever really need is one!

How user-friendly is it to add new pages to your Profitmart website? As simple as logging into your Profitmart account, scrolling down to the ClickBank keyword box, typing in the keyword of your new page and clicking on the "Save" button. You can easily add new keywords to your web pages (and delete keywords that you no longer wish to use) from the admin interface. As quickly as that you have just built a new page that;

1. Is automatically populated with ClickBank, Ebay, and Amazon products that each pay you up to 75% commission.
2. Automatically displays Google AdSense ads that are related to your new keyword.
3. Places a link to that page from all other pages in your Profitmart website so people can find your new page from all other pages.
4. Creates a new customizable area where you can add your own custom content (optional), or go with the default content.

This feature has great potential to change your sites as your niche changes. For example, imagine having a Gaming or Playstation site up and already indexed by the search engines. When the new PS4 or Nintendo WIII hit the market, all you have to do was add the new keywords, the new articles, plus the clickbank keyword and you are already one step ahead of the competition. No need to wait for the search engines to list your site. **The potential for this is huge.**

The secret to making passive income with Amazon. Clickbank. Ebay. AdSense and Affiliate Marketing is about the tools and resources you are using as much as the Niche you are marketing in. By giving you the **right tools from the beginning** as explained here. Profitmart literally forces you to take control of your Niche Marketing.

You can start using Profitmart to build your Virtual Real Estate Empire right away! Let's say you want to have a page exclusively about "Health" Here's what you do.

Login to your admin page and scroll down to the "Clickbank Keywords" box and input the keyword "health", click on "Save" and BOOM! as easy as that, the new page is instantly built and added to your left-hand navigation menu of your Profitmart store for easy access to your customers!

You can even set it as your home page there and then if you would like to! More importantly; Your new health store is **automatically crammed** with **health related products** and your own affiliate **links to Amazon, ClickBank, Google** and even **ALL THE Ebay Auctions** to do with health items!

Now you can add as many other health products, articles, banners, affiliate links, comments or whatever you want to your new health page! You are not limited to "just" information products. You can also add tangible products like health related disability goods and potions and pills for this example.

If you next decide you want a gardening page, or a hobbies page, or a scrapbooking page or auto repair page, it's your choice! Pick anything and the Profitmart engine will instantly build your page with its automatically related items. Leaving your Health Page as it is if you want to.

Chapter Three: **Search engine friendly.....Guaranteed!**

We live in a day and age where people use search engines on a daily basis to find information, products or services.

Web site owners who offer these things want to be found in the number 1 spot for a particular keyword phrase or at least on the first page of results.

In order to obtain these prized positions, the search engines have to make the decision that your site deserves that prestigious place.

Each and every Profitmart Professional internet Profit System is search engine friendly because it gives each owner complete control over meta tags, page title, content, and so much more.

You are shown how to optimize your web pages so the search engines actually come looking for your site!

Using your own Free Domain Name you can build your brand, your identity, your links and perform real search engine optimization including meta keywords, meta description, page title, store name and more! Profitmart helps you do it all!

Every ProfitMart member can add their own custom content to over 90 category pages!

That means that no two ProfitMart sites will ever be the same, so you will be offering your customers unique content and products!

Not just your own but those from Clickbank. Amazon and Ebay. Plus automatic AdSense ads.

You will never get your site listed, at least long term, in a search engine by simply submitting it.

Rather you need to obtain a link from a site that is already in the search engines and then the engines will find the link, visit your site and add it to their index.

Profitmart **links you to at least 150 sites automatically.** Now this really is "search engine friendly"

Remember this though.

Your web site is for the customer, as well as for the search engines!

Search engines are not going to buy your products or hire you to perform a service, they are not going to pay your bills or allow you to earn an income. The customer will. It is the customer that you want to attract.

Consequently you should always design and market your site with the customer in mind.

This involves the aesthetics of your site, its usability, the way it communicates and finally its ability to convert.

Make sure Search Engines and your customers can find you in the first place.

Search Engines Crave Content and you are automatically giving them at least 90 Niche pages with Clickbank. Amazon and Ebay products plus automatically added AdSense ads on each page.

As long as there is good content within your pages, it doesn't matter where it is - search engines will find it. So the challenge then is not "where" to place content but simply to have it in the first place. Profitmart offers you the content!

In finding and creating content it is imperative to have the best available. This is where creativity in presenting information comes into play.

If your site offers information on a subject, then make sure you have the best info available on the Internet. What could be better than the information on your site from Amazon. Clickbank and Ebay. Along with your AdSense Ads your customer will be overwhelmed with the information he is looking for.

All search engines want to do is to be relevant and help their users find the very best sites related to their search queries.

While a few people do "pull a fast one on" and "cheat" their way to the top, the web sites that ultimately earn the top positions and stay there are the web sites that are the best in their field.

Profitmart never stops working to make your site better than all the others you are competing against. Allowing you to use unique Title Tags and Meta Description Tags to better the information.

This is the best strategy in obtaining long term success not only in regards to search engine positioning but with your customers as well.

Having a search engine friendly site simply means having a site that they can find, that they can understand, that provides a wealth of good info and that is the best in its field. **Your Profitmart Site!**

Chapter Four: Amazon. What can it do for me?

The Amazon Affiliate Program. It's probably the biggest and best known affiliate program around. Hopefully this chapter will give you some ideas on the best ways to get the most out of it. It is one of the four included affiliate sites on your Profitmart website and is placed usually on your "Home Page"

If you don't know, Amazon.com is one of the largest online retailers. They started off selling books but now have a large range of consumer goods that include DVDs, Videos, Toys, Electrical goods and much more. Amazon pays between 5% and 15% on the sale of their goods. Basically, you get 5% for all goods except books that are sold at between 10% and 30% off. If you link directly to these, you will make 15%. Amazon also now has a sliding affiliate scale available that lets you earn between 4% and 6.5% on all sales depending on the number of sales you make each quarter.

Now, the vast majority of Amazon affiliates make little or no money from their affiliate program. However, some people make thousands of dollars from it. The key to getting the best return possible is to find out what works for your own site. Remember also that your Profitmart site could be solely an Amazon sales site with Amazon stores on every page if you wish! Here are some more of my thoughts.

Try not to use basic banners. If you just use a standard Amazon banner that links to the home page, you probably won't make any sales so try not to use them. Link directly to products or areas. You should add links to your site that are relevant to your content. These links can be to specific items or to specific areas. In regards to books, I prefer to link directly to particular titles so I have a chance of getting the 15% commission.

Find out where your customers live. In my experience, people in the UK are unlikely to buy from the US based Amazon store. So, if you have a number of visitors coming from the UK (or Europe) make sure that you provide links for each product to both Amazon.com and Amazon.co.uk. If you don't provide the UK link, people may go to the US site to find what they need and then order it from the UK version or visa versa - you won't get the commission.

Use the search engines to get highly targeted traffic. Persons who are looking for products that Amazon sell.

On my sons soccer site, I have set up pages that attract people searching for things like Manchester United DVDs, football Videos, Manchester United Books and so on.

On these pages, I provide product links to Amazon.co.uk. I also provide a short description of the product and the cover photo that Amazon provides. Using this method, he is currently receiving a 14% conversion rate. This is very effective and just what your Profitmart site could be doing.

Spend time looking through the Amazon stores to see products that may be of interest to your visitors. Find very specific products that your visitors may not know about (or know where else they can find it).

Amazon can be a nice little additional income stream if you do it right. Try the quick linker widget. After you install it to your blog or Web Page, you can quickly and easily link to relevant Amazon.com products as you write your blog posts or update your page content by including custom HTML tags as you type. Your Quick Links will have your Associates ID automatically included. The Quick Linker widget does not have a display - it just helps you create links in your page content. Chapter Six: **Ebay. Your affiliate Link on Thousands of Auction sites!** **Automatically on Your PiPS Website.**

That's very true! Your eBay affiliate link is embedded in all the auction sites that show up on your Profitmart Website.

However there is something else!

Can You Easily Place Your Affiliate Link in All 28 Million eBay Products? Let me ask you another question.

Is there a serious money making opportunity in the eBay affiliate program? You bet there is.

There is now brand new Software that actually enables you to exploit this opportunity in a way that has not previously been possible. Almost every internet marketer I know has at some point signed up to the eBay affiliate program and almost every single one of them have failed to make any significant money with it. This software is set to change this...BIG TIME.

There is an Embryo Opportunity that lies in eBay waiting to unleash its power on an unsuspecting world through your "Profitmart" site. Ebay is a fascinating marketplace for all sorts of reasons but the most important of these is that eBay invites us, through their affiliate program, to take a share of their revenue.

The eBay marketplace contains millions and millions of different products all of which are wanted by millions and millions of different people.

If you can connect these people to the products that they want on eBay, the successful eBay branding will convert them for you and you will receive, in return for your service, up to 65% of the commission that they make on each sale and a further \$22 if the particular buyer becomes an active eBay member to make that purchase.

What an opportunity given to you on a plate from the biggest auction house in the world!

Your software constantly updates the product inventory of over 28 million to your store. The products cater to just about every imaginable instinct for purchase that currently exists online. What this means is that regardless of the niche market you already target or would like to target there are products listed for sale on eBay that someone would very likely be interested in. While you have access to this product inventory and can make money promoting it you never have to stock a product yourself, ship an item or deal with a customer.

Ebay has invested a lot of time and money in carefully developing and branding a marketplace which is now trusted by millions of people worldwide.

Ebay will pay you more than half their revenue plus a high member sign up bonus if you help them sell the products listed in the eBay marketplace by connecting targeted people to them.

Bearing this in mind, why is the eBay affiliate program not talked about like AdSense or ClickBank when it comes to making money online when in reality it offers much more substance than AdSense and much more width than ClickBank?

The primary reason for this is a previous limitation of tools which has meant that the opportunity that lies in eBay's wide variety of products has not been properly explored.

Before today, if you wanted to market eBay's products you had to have extensive PHP knowledge so that you could manipulate eBay's API or you were limited to manually integrating things like affiliate banners and eBay editor kits into your website or blog.

Limited to these tools there was no way for you to truly exploit the opportunity presented by a marketplace that contains 25 million products.

Consequently, eBay's huge product inventory and their high paying, high converting affiliate program has been largely demoted to a means of filling up space on a website. An eBay banner here and an editor kit there – there's no system, no purpose, no aim and consequently no money.

This New Software now changes this and enables you to start taking a piece of eBay's revenue by connecting people to the products that they want in the eBay marketplace...**Especially from your "Profitmart" Website.**

For the first time there is software that gives you (regardless of your technical ability) complete control over eBay's massive and constantly updating product inventory. Giving you the opportunity to add your eBay affiliate link into each one! Try to imagine yourself as having a huge warehouse behind you which contains 26 million products and which you control through one store setup file. It is this reality that this software grants you.

You choose which of eBay's products you want to market. For example "Golf". You then go to your store setup file, choose the Golf category, press "Build" and the software will automatically give you a complete eBay affiliate store for that niche. This store will contain every golf related item listed on eBay (in this case over 80,000) which you can then connect people to and earn affiliate commissions from.

You are, however, not limited to one niche or one store. You have a choice of 28,926 different niche stores that you can build, each of which will contain all of the products listed on eBay that are relevant to your chosen target market, be that Diamonds, Guitars, Baby Strollers or Laptops.

Each affiliate store you build will automatically:

1. Include all of the products listed on eBay that are relevant to your chosen target market.
2. Include all of the associated navigation structure which eBay has for your category choice.
3. Update on a live feed from eBay and as such will never need manually updating.
4. Include your eBay affiliate id in every product link.
5. Provide you with hundreds or thousands of keyword packed, content rich pages that the search engines love.

All you have to do is decide which niche market you want to target and press build...

Whether you want to more effectively monetize websites or blogs that you have already developed or target new niche markets with content rich eBay affiliate stores everything is in place for you to start to do so.

Chapter Seven:

AdSense is Google's program for placing its AdWords ads on non-Google websites such as your PIPS Website.

Google's AdSense program lets you sell advertising space for other people's ads on your website--and not just any ads that Google chooses, but ads that are relevant to your site's content pages. The service is free, and you earn money every time someone clicks on an ad.

AdSense lets website owners like you and me make money easily and fast without even selling anything. In fact you can often start earning in under 24 hours and when you get paid, it is Google that sends you a check!

You don't have to run a large site or have much traffic to make money and AdSense works for small enthusiast or hobby sites as well as larger operations. The codes are automatically entered into your "Profitmart site in a variety of places. You may switch them on or off as you like so enabling them to fit in with the general decor of your site. You may sign up to be an adsense publisher on the admin page of your "Profitmart" site

AdSense is a great program, though Google has given it a confusing name. If they'd called it "**AdSpace**" we would all know right away what it's about: selling advertising space on your website. AdSense has become popular with bloggers and other people who run non-commercial sites.

You sign up, carve out some space on your pages for the ads, paste a few lines of code from Google into the HTML for your site, and let Google fill in your pages with color-coordinated ads. When somebody clicks one of the ads, Google pays you a fee (the amount varies, and the company doesn't disclose its payments).

However with "Profitmart it is all done for you. You do not have to lift a finger except to sign up. All ads are automatically produced on your website.

Though you can't decide which ads appear on your site, Google does a very nice job of assessing your pages and supplying ads that might interest your visitors. For example, if you run a site about the history of window treatments, Google is likely to dish up ads for vintage blinds and specialty curtain rods. That kind of relevance is important, because Google doesn't pay you when somebody sees an ad on your site; it pays you when somebody clicks an ad. So you want Google to fill your space with ads likely to interest your readers.

The AdSense for Search program is another great way of increasing your website revenue while helping your customers search your site at the same time. By using AdSense for Search you can actually get paid for giving people exactly what they are looking for! This makes AdSense for Search a very powerful tool that you can use to increase your AdSense income. Not only does it add more functionality to your site, it also ensures you that you are giving visitors to your website precisely what they are looking for.

The \$64,000 question is, of course, how much can you make?

If your site gets tons of visitors, and you focus on a narrow topic, there's a good chance Google will serve up ads that appeal to a lot of people hitting your site. For example, if you run a popular site devoted to mobile gadgetry, you might make enough to buy a new device every few months. If your site gets sporadic traffic, or more important, if it's not clearly about something, (See Domain Names above!) it may be hard for Google to supply highly relevant ads, and you might make enough to cover a box of drawing pins every so often.

Chapter Nine:

Become A Profitmart Affiliate.

Make a Genuine Residual income at last

The ProfitMart Affiliate Program!

A powerful alternative to ClickBank, the ProfitMart Affiliate system provides ad tracking, custom landing pages, live desktop sales stats, and direct deposit of commissions to your PayPal account or mailed out via cheque.

The ProfitMart Affiliate System was created to better support our affiliates, providing ad tracking, banners, text ads, customized landing pages, even AdSense style ads in the color scheme you choose!

How Does It Work?

When you join ProfitMart you will also be input to our affiliate program, and will be supplied with a range of banners and textual links that you can use on websites, in ads, forums, etc. When a user clicks on one of your links, their activity will be tracked by the ProfitMart affiliate software. You will earn a 50% commission on anything sold through your links.

This commission will be paid as a residual for every month that the referral remains with us.

Payments are made on the 1st of each month, for the previous month.

Instant Commission Notification. Install our Windows desktop application (CommissionAlert) and get notified of new commissions right on your desktop! This feature is optional to use.

Real-Time Statistics And Reporting! Login 24 hours a day to check your sales, traffic, account balance and see how your banners are performing.

You can even test conversion performance by creating your own custom links.!

Here is the best explanation of the payment system for this highly regarded affiliate commission Program that I have found.

“ProfitMart affiliate commissions are calculated and paid by a completely automated software system that is in place by about 5500 different affiliate programs.

It is the best there is, but because it is powerful, and provides a good deal of information, some may find the stats, etc., a little confusing at first.

Let's keep it simple: Here is the life of an affiliate sale as an example.

1. You refer someone to the ProfitMart sales copy or landing pages using a properly coded affiliate link. These are available in the Affiliate Panel. Which you can also access via the profitMart link in the Affiliate Toolbar,
2. This person joins ProfitMart, and a "pending" commission sale will show in your Affiliate Stats.
When our system validates the paypal payment, the email address, etc., the commissioned sales will no longer just be "pending", it will become a verified commission. This can take up to 48 hours after the sale for validation.
3. On the last day of the month the script adds up all verified commissions for you, and if they total more than \$50 (commissions on sales, not including joining bonus, which is NOT a commission) since the previous month, you are moved into the payments to be paid que. Anything less than \$50 is carried over to the next month.
4. On the 1st of the next month (most affiliate programs make you wait 14 to 40 days, we don't), the script sends all of the commissions due to you in a single payment via PayPal directly to your account, and you will receive an email notification to that effect.
YOU MUST be sure you have a valid PayPal account to get paid. The script sends the payment to the address you gave us for Paypal. If you give us a fake email for PayPal, the money goes to whomever actually has that address at PayPal. It has happened, and creates a huge headache for the member, PayPal, and us. MAKE SURE your PayPal email address is VALID please.
5. Now, the next month, when this same member that joined through your link earlier pays his subscription again when it comes due AND your account is in good standing, you will see another "pending" commission for him, without actually creating another sale. This is a pending and recurring commission. When the script validates that this member that joined through you and did in fact clear his payment at paypal successfully, this recurring commission to you becomes "verified", and you get credited again for no extra work:
6. This continues for that sale so long as the member renews, and you renew. Note that if for some reason this person does NOT pay their subscription when Paypal bills them, or their credit card expires, or whatever reason PayPal cannot process them, we cannot pay a commission, as we will not have received a payment.
On average, people stay in membership programs from 3 to 6 months. This means you will see from a minimum of about \$30 (3 months at \$9.98 commission recurring) up to about \$150 (6 months at \$24.98 commission recurring) for any individual referral".

My Grateful thanks to Ron Davies. www.ProfitMart.com Techie Administrator for this explanation and for allowing me to include this here.
